Conference Dinner

Final Logistics

- **Contributions talks and posters will be online and will be collected by LOC**
- **Papers will be published by Contributions Skalnate Pleso Observatory, details on the workshop web, deadline April 30 , 2017**
- **Selected conference photos will be online, link will be soon at the conference web page**

Future of IBWS workshops

- **Currently under discussion**
- **Last 7 years as regional high energy astrophysics workshop but mostly Czech German**
- **Last 4 years with small satellite day/session**
- **Questions: Move to other interesting Czech cities? Keep location close to German border? Better focus on more narrow particular field of astrophysics or satellite technology (perhaps every year different?)**
- **What we want to keep for sure: wide participation of students i.e. low-cost workshop, enough time for discussions, social activities, dining together**

**Thanks for coming and have a good trip home
And see you at 15thIBWS2018, 10th in Karlovy Vary**
